- Training Modules are prepared so that it can train the student in certain essential Finishing Skills and endeavours to make them 'Job-Ready' professionals. These factors shall make them employable and give them a large edge over other fresher.
- Online Learning - Students will learn the modules through mobile app. App shall help the student learn and practice the skills on his/her smartphone. Students can take the assessment test without any difficulty on their devices
- 1-2-year actual industrial training + certificate – students may get opportunity to work in same industry or may apply for better opportunities in another industries.

Employability Skills Test

Employability Skill Test is widely used pre-screening assessments by thousands of students and colleges alike. Uniquely developed for addressing the needs for Indian students the test helps one identify their strengths and weakness, aids a student understand functional self-traits which help them determine the right domain of career inclination.

Assessment of Training

To assess the progress of employability enhancement training we are conducting skill assessment test min two times in every year during the period of on job training as mentioned below:

- Entry level [during the 1st month of training period – Pre-Training Assessment Test, Mode- Online]
- Training Performance Assessment- i.e., Online Test through mobile App & Training appraisal (Viva) at the end of every 6th month of training (two times in a year)
- Third Party Assessment – At the time of completion of the training period assessment of training by third party approved by DGET / NSDC.

Training Performance Assessment (Viva) will help to assess the skill sets (General Attributes and Job Role Skills) in the On-Job Trainees.
